**Will You Still Love Me Tomorrow? (Choice, #3)** Even though the emergency room is the place people end up on one of the worst days of their lives., it certainly can be one of the most interesting places. Dr. Mina Caselli has been the chief of emergency medicine at City Hospital for 15 years. She thought she had seen and heard just about everything, until she meets up with an attractive young medical student, who hauntingly reminds her of someone in her past who she is trying to forget. In the sequel to *The Choice* and *Clinical Distance*, *Will You Still Love Me Tomorrow?* picks up fifteen years into Mina Caselli and Rosemary Rosetti's relationship. Their busy careers as an ER physician and police detective make their lives exciting, but the stress and long hours of their jobs have taken a big toll on their love life. The fact that Rosetti has entered early menopause kicking and screaming isn't helping matters, either. Can their relationship survive? Will Mina and Rosetti succumb to the temptations and pressures of their demanding careers or will love keep them together?
